

RIVER SPEAK

FALL 2023

FALLING FOR OUR RIVERS!

Join your Riverkeepers
this season!

We have lots of
fun activities planned
on the rivers
and
on the land!

OUR SUCCESSES

PROTECTING WATER QUALITY

Yes, we do! We have active water quality monitoring programs, including:

- Bacteria Blitz on World Water Monitoring Day
- Swim Guide monitoring during the summer months
- Monthly SC Adopt-a-Stream sampling on several streams
- Volunteer monitoring programs on our local rivers

OUR SUCCESSES

PREVENTING LITTER

Litter is more than just an eyesore. It impairs water quality, impacts wildlife, and affects our recreation based economy. Our Adopt a Landing, TrashBlitz and now Keep Winyah Rivers Beautiful programs are successfully cleaning up litter in our river watersheds.

OUR SUCCESSES

CONSERVING LAND

Protecting our rivers means protecting the land. Floodplains and wetlands, including isolated wetlands, protect clean water and prevent flooding.

We partner with a diverse group of conservation partners to protect these landscapes, and own a Waccamaw river access in NC and the Rocky Point Community Forest on the Black River in SC.

OUR TEAM IN ACTION
